CREO PARAMETRIC

TECHNICAL DRAWING

➤ PROJECT & SEMINAR

- *Pneumatic Die Punching Machine*
The project was conducted to make sheet metal products using pneumatic system as it is comparatively more economical for production of large quantities of products as it uses compressed air rather than some hydraulic fluid which is rather expensive .
- *Seminar Topic on - BS6 Engines on Bikes*

➤ CERTIFICATE

- *Training Program on Industrial Automation Technology*
Completed training programme on "PLC and Sensors" in collaboration with Bosch Rexroth India
